

Conifers Care Home

Conifers Care Home provides 24hr residential care and respite care, situated in a quiet residential area in the village of Ruabon, just outside of Wrexham.

Staff are fully trained and carefully selected to encourage residents to retain their own independence where possible and are on hand to support when needed.

Question	Answer
How often is RITA used?	Every day
Has the RITA system in your opinion improved the mental health and wellbeing since the RITA system has been introduced?	Yes
Has the RITA system created a calmer environment and improved wellbeing?	Better
Has the number of challenging behaviours reduced since the RITA system was introduced?	Yes - It a very good distraction for some residents who become anxious especially at night, also helps to distract Residents who wander
Has the RITA system Improved residents engaging in group work activity resulting in greater stimulation and confidence?	Extremely effective - Our Care Staff have found that Rita used in group setting sparks off conversations and promotes concentration, it also allows us to help find out much more about a person by them picking their own music and games
Has the RITA system in your opinion improved the management of falls?	Yes

"Our Care Staff have found that Rita used in group setting sparks off conversations and promotes concentration, it also allows us to help find out much more about a person by them picking their own music and games."
