

PRIORY

ADULT CARE

Located in Wrexham, Fairhome provides specialist residential support and nursing for 23 adults with functional mental health problems and dual diagnosis with mental health, for example, acquired brain injury and learning disabilities. Residents are encouraged to develop daily living skills to maximise their independence such as shopping, budgeting and cooking. The service has 24-hour staff support on site, as well as access to full multidisciplinary and primary care services in the local area.

Manager’s feedback:

Question	Answer
How often is RITA used?	Every day
Has the RITA system in your opinion improved the mental health and wellbeing since the RITA system has been introduced?	Yes
Has the RITA system created a calmer environment and improved wellbeing?	Much better - RITA has brought the residents closer together. Together they join in activities with staff and the RITA. Many different activities to choose from.
Has RITA improved residents engaging in group work activity resulting in greater stimulation & confidence?	Relaxation groups, reflection group, pamper group, puzzles and quiz, karaoke, guess the song, socialisation. Storytime and listening activity with a cuppa. Gathering together building relationships.
Has RITA system Improved mental health and stimulation after residents have returned from hospital/medical treatment and aided their recovery?	Somewhat effective - Provides more routine, structure and involvement
Has the RITA system in your opinion reduced the 1to1 required since the RITA system has been introduced?	Yes
Have you seen an improvement in food and fluid intake by residents using the RITA system?	Yes – Snacks & drinks during the session time

“RITA has brought the residents closer together.”
