RITA - Training website

RITA e-learning (<https://ritatraining.talentlms.com/talentlms.com>)

The screenshot displays the RITA training website interface. At the top, there is a navigation bar with six categories: Music, Radio & Relaxation; Images, TV Clips & Movies; Fun & Simple Games; Books & Quizzes; Apps & Creative Activities; and Lifestyle & Personal Projects. Below the navigation bar, there are five main content cards: Music, Sing Along, Relaxation, Radio Shows, and Poetry. Each card features a small image and a brief description. The Relaxation card is highlighted in the center. At the bottom of the page, there is a footer with the RITA logo, user login information (Logged In as Bill Jones, Current Career Manager Manager), the date and time (It Is Now Wednesday Afternoon), and a link for Help, Information & User Guides.

Bradford RITA pilot project

- ▶ £18k funding from Public Health Bradford (now Office for Health Improvement and Disparities - OHID Bradford)
- ▶ RITA care bundle each (1 Large RITA unit + 1 Tablet) + 1 extra Tablet
 - ▶ Local Authority Assessment bed facility (Valley View Court)
 - ▶ Local care home (Five Rise Nursing Home)
- ▶ One extra bundle provided / sponsored by my Improvement Network
 - ▶ Local care home provider (Greystones Nursing Home)
- ▶ Bradford District Care Trust (BDCFT) Older People's Mental Health Inpatient - RITA's funded by Better Lives Charitable Fund c/o Morrisons
 - ▶ Bracken Ward (Airedale Centre for Mental Health) - 2 bundles
 - ▶ DAU (Dementia Assessment Unit, Lynfield Mount Hospital) - 1 bundle

Bradford RITA pilot project - Aims

- ▶ Understand usefulness and acceptability of RITA in different care settings
- ▶ Evaluate impact and benefits
- ▶ Consider advantages of RITA in supporting continuity of care and seamless personalised meaningful participation care plans for individuals transitioning between participating pilot sites

Bradford RITA pilot project - outcomes

- ▶ Understand usefulness and acceptability of RITA
 - ▶ Lots of examples of use of RITA to reduce distress, increase activities, well-being at all pilot-sites
 - ▶ Use of features like Relaxation Exercises, Games / Bingo, pshycial exercises and Movies with groups
 - ▶ Use of personal profiles
- ▶ Recognition of local use of RITA
 - ▶ Silver Award for Use of RITA in End of Life Care to Five Rise Nursing Home

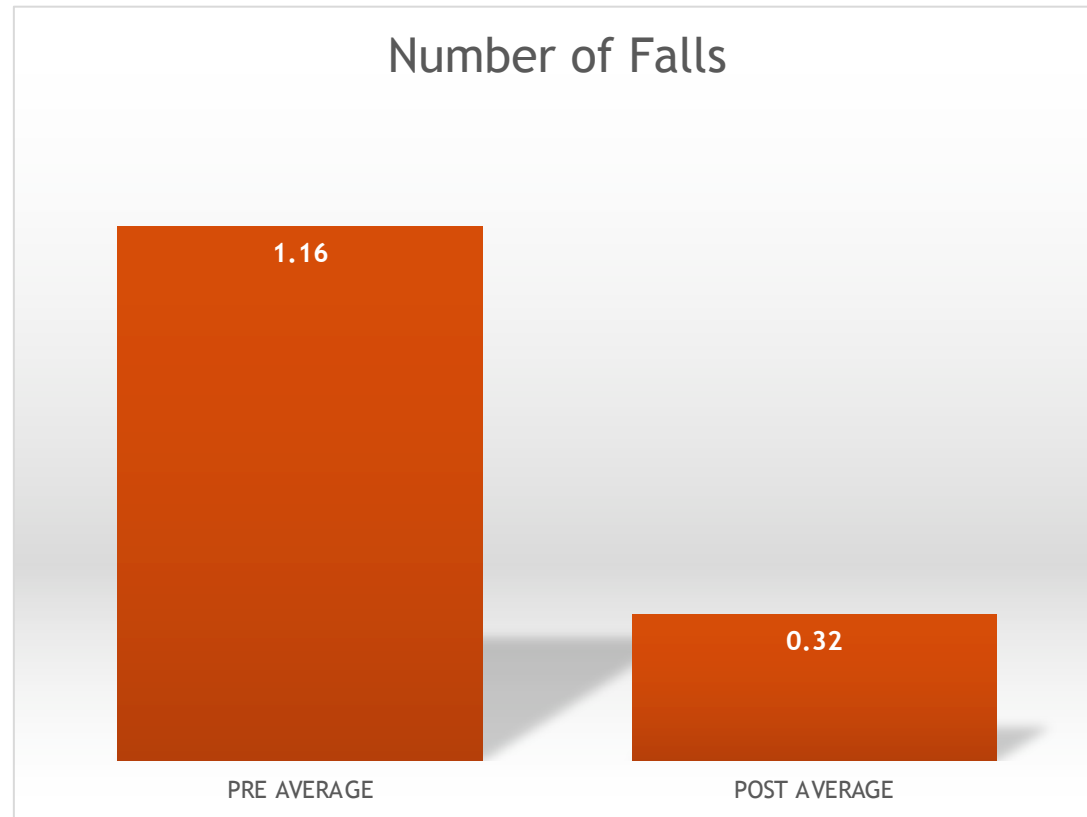

Evaluation - Design

Outcomes based on one site - Five Rise
Nursing Home

Evaluation - Outcomes

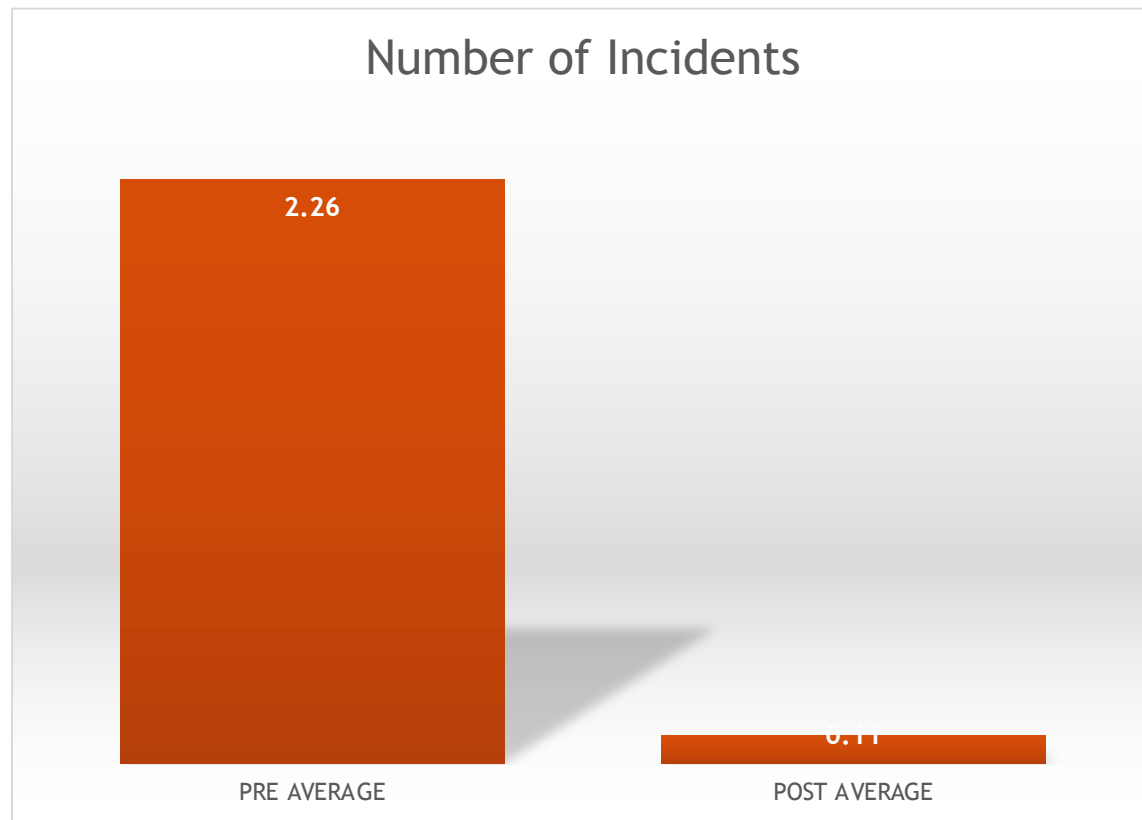

Significant reduction in the average number of falls

Paired T-Test = 2.6
DF = 18
P-value = 0.02

Evaluation - Outcomes

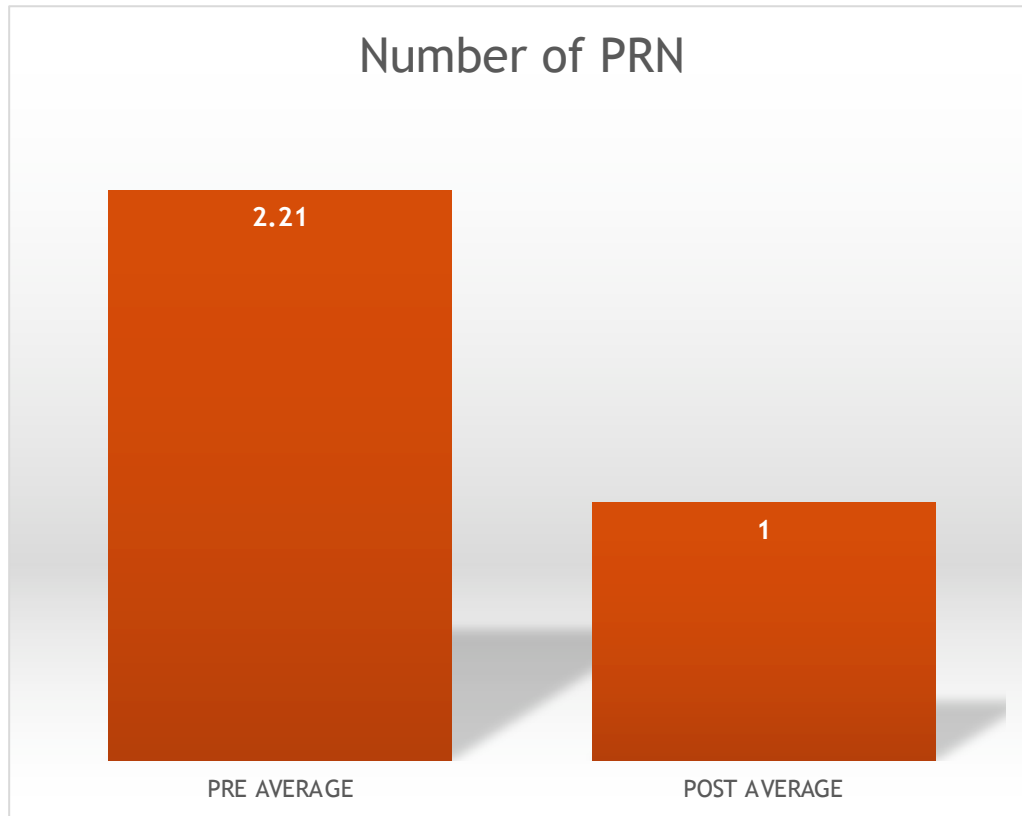

Significant reduction in the average number of incidents

Paired T-Test = 8.2
DF = 18
P-value < 0.001

Evaluation - Outcomes

Reduction in the average number of overall PRNs (not significant!)

Paired T-Test = 1.8
DF = 18
P-value = 0.08

Evaluation - Outcomes

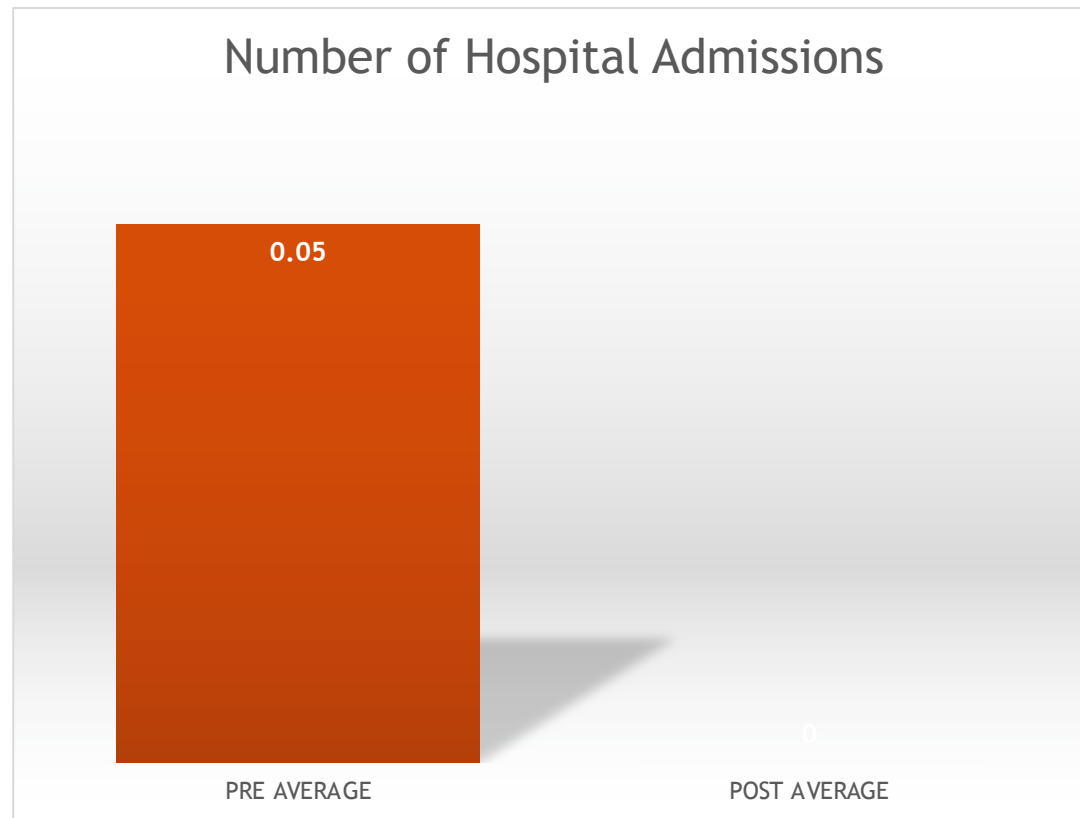

Significant reduction in the average number of Benzodiazepine use

Paired T-Test = 2.2
DF = 18
P-value = 0.04

Evaluation - Outcomes

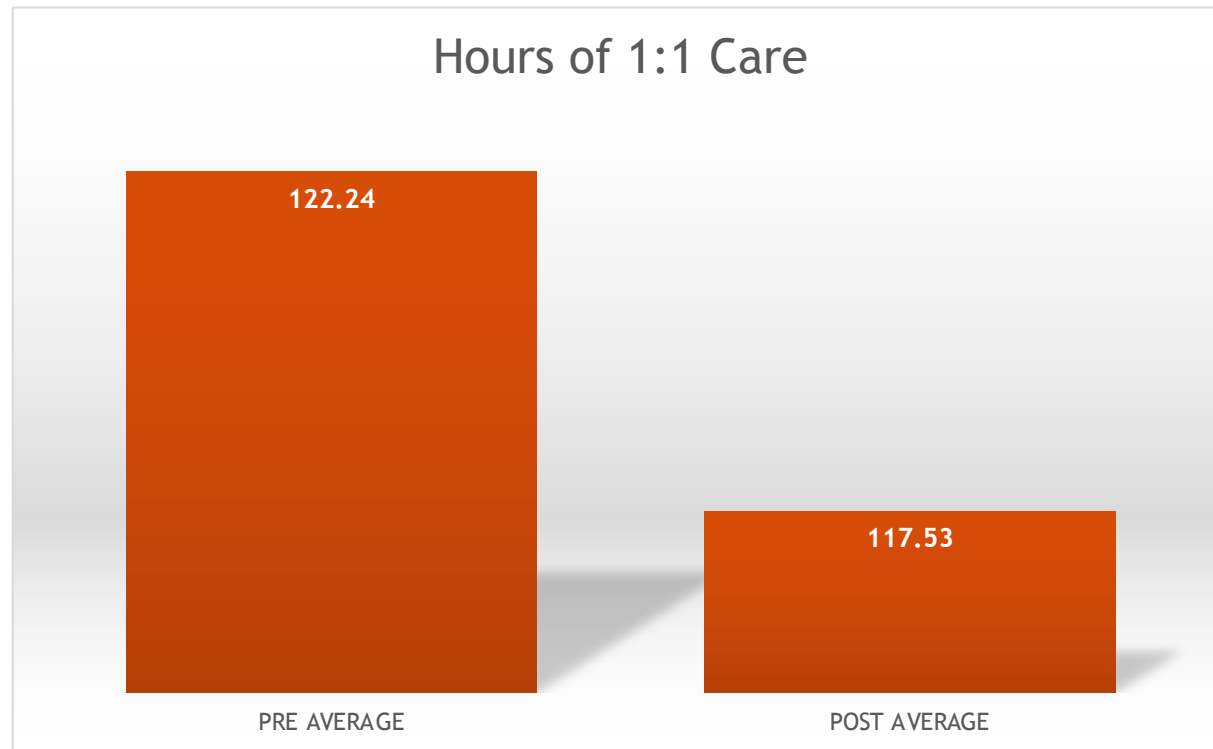

Significant reduction in the average number of Hospital admissions

Paired T-Test = 2.6
DF = 18
P-value = 0.02

Evaluation - Outcomes

Significant reduction in the average hours of additional 1:1 care

Paired T-Test = 2.7
DF = 18
P-value = 0.02

Summary

- ▶ RITA has been used and accepted in all settings
- ▶ RITA profiles could support personalised care plans (difficult as only a few pilot sites with RITA devices)
- ▶ Our data shows the following benefits:
 - ▶ Reduction in falls
 - ▶ Reductions in incidents
 - ▶ Reduction in use of Benzodiazepines
 - ▶ Reduction in number of Hospital admissions
 - ▶ Reduction in 1:1 care
